- (b) to give a grant to any person, whether for use by that person or by a third party, towards expenditure which would be capital expenditure of the local authority if incurred by it;

- (d) for treasury management activities;

(6) 2003 asp 1.
(7) 2005 asp 12.
(8) 1991 c.iv.

- (a) with the consent of the Scottish Ministers;
- (b) for expenditure or lending that the authority has power to incur in the exercise of any of its functions;
- (c) for expenditure or lending of such a nature that the Scottish Ministers are satisfied should be met by such borrowing; and
- (d) on such terms and conditions as to repayment as the Scottish Ministers allow.

(3) A local authority may not borrow otherwise than in sterling, except with the consent of the Scottish Ministers.

3. Two or more local authorities may combine to exercise their powers of borrowing money jointly, and where they do so these Regulations shall apply to the amount each authority receives from the joint loan.

4. When exercising its power to borrow money, a local authority must have regard to generally recognised codes of practice and guidance in relation to capital finance and treasury management.

Borrowing by way of a credit arrangement

5.—(1) A local authority may incur debt through borrowing by way of a credit arrangement for financing capital expenditure of the authority.

(2) The amount of external debt to be recognised by a local authority in respect of a credit arrangement is the liability that requires to be recognised as arising from the credit arrangement in accordance with proper accounting practices.

The authorised limit for external debt

6.—(1) A local authority must determine before the start of each financial year how much external debt it can afford during that financial year and each of the subsequent two financial years (its “authorised limit” for each of those years).

(2) The authorised limit for each financial year must identify separately the amount of debt from borrowing money and the amount of debt from credit arrangements (its “debt amounts”).

(3) A local authority may—

- (a) vary its authorised limits during a financial year, if it considers it prudent to do so;
- (b) exceed either of the debt amounts during a financial year, if in doing so it does not exceed its authorised limit for that year.

(4) For the purposes of section 56(6) of the 1973 Act⁽⁹⁾ the determination and any variation of the authorised limits are functions of the local authority with respect to borrowing money (and therefore are functions that may be discharged only by the local authority itself).

(5) In complying with its duty to determine its authorised limits, and in varying its authorised limits, a local authority must have regard to generally recognised codes of practice and guidance in relation to capital finance and treasury management.

(6) The officer with responsibility for administration of the financial affairs of the local authority, in terms of section 95 of the 1973 Act, must report to that authority where—

- (a) a debt amount has been exceeded; or
- (b) there is a likelihood that the authorised limit for a financial year will prove inadequate, in that officer’s opinion.

(9) There are amendments to section 56 that are not relevant to these Regulations.

(7) On receipt of a report required by paragraph (6) the local authority must consider whether to vary its authorised limit and debt amounts.

Security for money borrowed

7.—(1) All money borrowed by a local authority (whether before or after the coming into force of these Regulations), together with any interest on the money borrowed, must be secured on all the revenues of the authority and may not be secured in any other way.

(2) For the purposes of paragraph (1), “revenues” does not include revenues of—

- (a) a superannuation fund which the local authority is required to keep by virtue of the Superannuation Act 1972⁽¹⁰⁾;
- (b) a pension fund which the local authority is required to keep by virtue of the Public Service Pensions Act 2013⁽¹¹⁾;
- (c) a trust fund of which the authority is a trustee;
- (d) a common good fund.

(3) A local authority must not mortgage or charge any of its property as security for money it has borrowed.

(4) All securities for borrowing created by a local authority are to rank equally without any priority.

(5) Any security granted in breach of this regulation is unenforceable.

Protection for lenders

8. A person lending money to a local authority is not bound to enquire whether that authority has power to borrow the money and is not prejudiced by the absence of such power.

External funds

9.—(1) Borrowing of money by a local authority for the purposes of the following funds is not to be treated as borrowing by the authority for the purposes of these Regulations—

- (a) a superannuation fund which the authority is required to keep by virtue of the Superannuation Act 1972;
- (b) a pension fund which the local authority is required to keep by virtue of the Public Service Pensions Act 2013;
- (c) a trust fund of which the authority is a trustee;
- (d) a common good fund.

(2) Entry into a credit arrangement by a local authority for the purposes of a fund mentioned in paragraph (1) is not to be treated as being entry into a credit arrangement by the authority for the purposes of these Regulations.

(3) The temporary use by a local authority of money forming part of a fund mentioned in paragraph (1), otherwise than for the purposes of the fund, is to be treated as borrowing by the authority for the purposes of these Regulations.

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations make provision with respect to the powers of local authorities to borrow money, to incur debt through borrowing by way of credit arrangements and to maintain loans funds. They are made under the Local Government etc. (Scotland) Act 1994 (“the principal Act”). They will replace much of the provision in relation to local authority borrowing that is contained in Schedule 3 to the Local Government (Scotland) Act 1975 (“the 1975 Act”).

Part 1 contains general provisions concerning the citation, commencement and interpretation of the Regulations.

Part 2 (regulations 2 to 9) makes provision about local authority borrowing. Regulation 2 sets out purposes for which a local authority may borrow money. Borrowing for other purposes requires the consent of the Scottish Ministers, as does any borrowing that is not in sterling. Regulation 3 enables local authorities to borrow jointly and sets out how these Regulations apply to such borrowing. Regulation 5 enables borrowing through credit arrangements, as defined by regulation 1(3), and provides for calculation of the amount of external debt that a local authority needs to recognise in respect of borrowing through such arrangements.

When a local authority exercises the power to borrow, regulation 4 requires it to have regard to generally recognised codes of practice and to guidance, such as the CIPFA Prudential Code and CIPFA Treasury Management Code. Compliance with the CIPFA Prudential Code would mean a local authority had to set an authorised limit for its external debt; regulation 6 makes this a requirement and provides for the determination and variation of the authorised limit. Transitional provision is made by regulation 17 for the introduction of this requirement.

Regulation 7 requires that all money borrowed, and interest on it, must be secured over all the revenues of the local authority, and can only be secured in that way. All securities must have equal ranking, which is a continuation of requirements under the 1975 Act. Existing protection for lenders under the 1975 Act is continued by regulation 8.

Regulation 9 provides that borrowing by a local authority for the purposes of the funds specified in that regulation is not to be classed as borrowing by that authority for the purposes of these Regulations.

Part 3 (regulations 10 and 11) enables a local authority to borrow to lend to other local authorities, specified other bodies and any common good fund of that authority.

Part 4 deals with loans funds. All local authorities that did not already have a loans fund were required to establish one by paragraph 12 of Schedule 3 to the 1975 Act. Regulation 12 requires that these funds are maintained, though they will operate more flexibly than as provided for by the 1975 Act, and sets out how they are to be administered. Regulations 13 and 14 provide for advances from loans funds and their repayment.

Part 5 (regulations 15 to 17) makes consequential amendments to other legislation, revokes some instruments that are no longer required and makes supplemental provision in relation to regulation 6. In particular, regulation 15 makes consequential changes to the 1975 Act and the Tay Road Bridge Order Confirmation Act 1991. Some other provisions of Schedule 3 to the 1975 Act will be repealed separately, by commencement of provisions of the principal Act that provide for their repeal.

Regulation 15 also amends provision in paragraphs 22 and 25 of Schedule 3 to the 1975 Act about use of money in certain funds that is not immediately needed for fund purposes. There is no longer a requirement to recognise the internal borrowing of these funds by advancing them to the loans

fund. Instead these funds can be used for any purpose that may be funded by borrowing, as set out in regulation 2, which includes financing capital expenditure and treasury management. Paragraph 22 of that Schedule continues to allow these funds to be invested externally.
