DECISION

© CROWN COPYRIGHT 2014

BACKGROUND

1. This is an application by Magna Housing Group Limited ("Magna") to dispense with the requirement to consult lessees before entering into a long term agreement for the supply of energy. The application is dated 19th May 2014 and annexed to this decision is a schedule of the various properties affected by this decision.
2. Directions were issued on 21st May 2014 which provided for various matters including that this matter would be determined without an oral hearing unless any objection was received. No objection was received.

DECISION

3. The tribunal grants the application to dispense with consultation subject to the following conditions.
4. Magna must enter into the lowest price contract obtained following a tender process.
5. Within 42 days of entering into such a contract all affected leaseholders are notified of the same together with details of the basic terms and details as to how and when the contract may be inspected by any affected leaseholder.
6. In making this determination the tribunal reminds all affected parties that there has been no determination as to the reasonableness of any costs claimed or whether any costs are payable by any individual leaseholder.

THE LAW

7. The relevant law is set out in section 20ZA of the Landlord and Tenant Act 1985. A copy of the section is set out in the Annex to this decision.

DETERMINATION

8. The application provides that Magna intend to appoint external consultants Utilities Exchange Limited ("UX") to undertake a tender process to identify the lowest price available for a long term agreement for the supply of energy to Magna's portfolio of properties.
9. Magna explained that their current contracts for supply of energy expire on 30th September 2014 and they therefore need to approach the market to carry out a fresh procurement exercise.
10. Magna indicated that they intend to contract UX to undertake this exercise. UX are asked to tender for 12 and 24 month contracts to secure the best price possible in the market.

11. Magna explain that, as is well known, it is impractical to comply strictly with the requirements for consultation with the various long leaseholders affected. Magna submits that the prices regularly fluctuate and there is a benefit to undertaking this exercise in the Summer months whilst energy consumption is low and historically more advantageous prices are obtained.
12. Under the tribunal direction Magna were required to write to all affected leaseholders sending them a copy of the application and the directions. Any leaseholder who wished to oppose the application was then required to notify the tribunal.
13. Magna sought an extension of time for serving the application on all leaseholders until 11th June 2014 with the date for leaseholders objecting being revised until 25th June 2014. This was granted.
14. Magna subsequently confirmed to the tribunal that they had complied with the direction to notify all affected leaseholders and the tribunal had before it a sample letter demonstrating compliance dated 10th June 2014.
15. The tribunal received a letter from a I O'Hare on 17th June 2014 indicating he was taking advice on the application. No notice of objection was filed by him.
16. A Mr David Findlay copied to the tribunal a letter he had sent to Magna requesting further information and indicating he was aware of his need to file any objection by 25th June 2014. No objection was received.
17. No other correspondence was received from any other leaseholder and there were no objections to the application.
18. The tribunal accepts that the energy market in offering long term agreements require acceptance of offers within short timeframes far less than the time taken to comply with Section 20 of the Landlord & Tenant Act 1985 (as amended). Given Magna intend to utilise the services of an expert company, UX, to determine the best price the tribunal was satisfied that there was no prejudice to any of the long leaseholders. It was appropriate for dispensation from compliance with the requirements to be granted subject to conditions.
19. The tribunal determined that given Magna indicated that they will proceed with the best price it is reasonable to make this a condition of dispensation. Further to ensure all leaseholders are aware Magna must notify all leaseholders affected once a contract has been entered into and the basic terms of the same together with how the contract may be inspected if any party so wishes.

JUDGE D. R. WHITNEY

Appeals

1. A person wishing to appeal this decision to the Upper Tribunal (Lands Chamber) must seek permission to do so by making written application to the First-tier Tribunal at the Regional office which has been dealing with the case.
2. The application must arrive at the Tribunal within 28 days after the Tribunal sends to the person making the application written reasons for the decision.
3. If the person wishing to appeal does not comply with the 28-day time limit, the person shall include with the application for permission to appeal a request for an extension of time and the reason for not complying with the 28-day time limit; the Tribunal will then decide whether to extend time or not to allow the application for permission to appeal to proceed.
4. The application for permission to appeal must identify the decision of the Tribunal to which it relates, state the grounds of appeal, and state the result the party making the application is seeking.
